

ML731-1

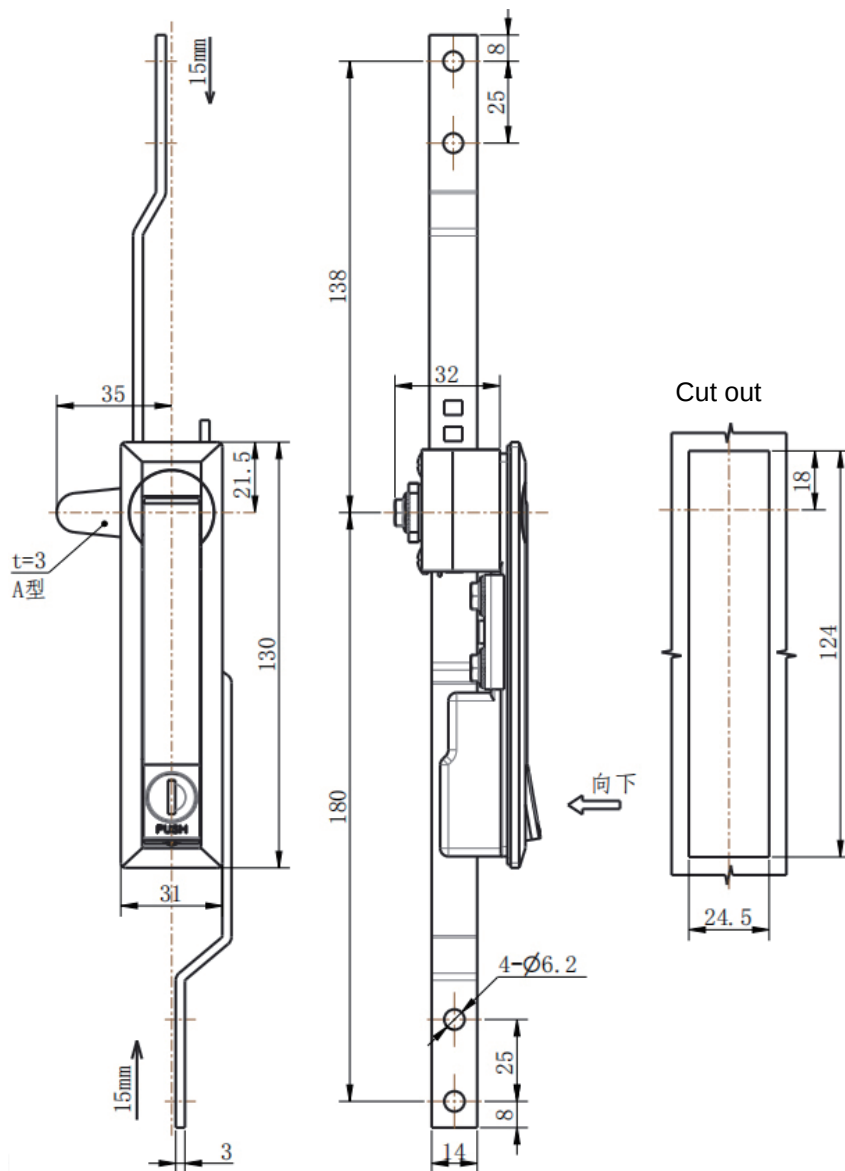

Material: Zinc alloy housing
steel cam and rod

Finish: Powder coating (black)
galvanized steel cam and
rod box assembly

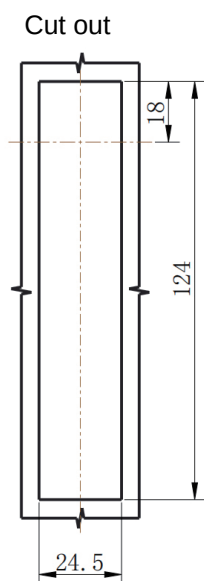

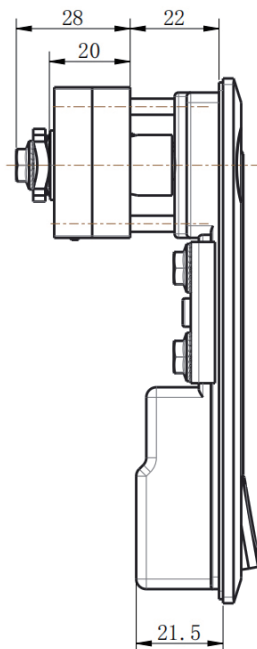

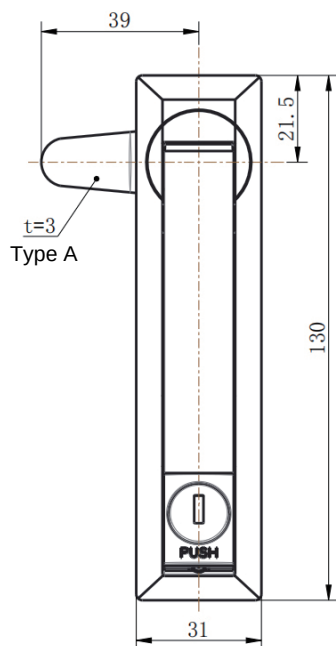

Application: 90 degree rotation to
open or close

Remarks: key K06

Part number

ML731-1

ML731-2

Material: Zinc alloy housing
steel cam and rod

Finish: Powder coating (black)
galvanized steel cam and
rod box assembly

Application: 90 degree rotation to
open or close

Remarks: key K06

Part number

ML731-2

ML731-3

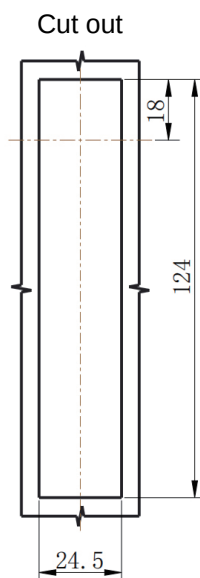

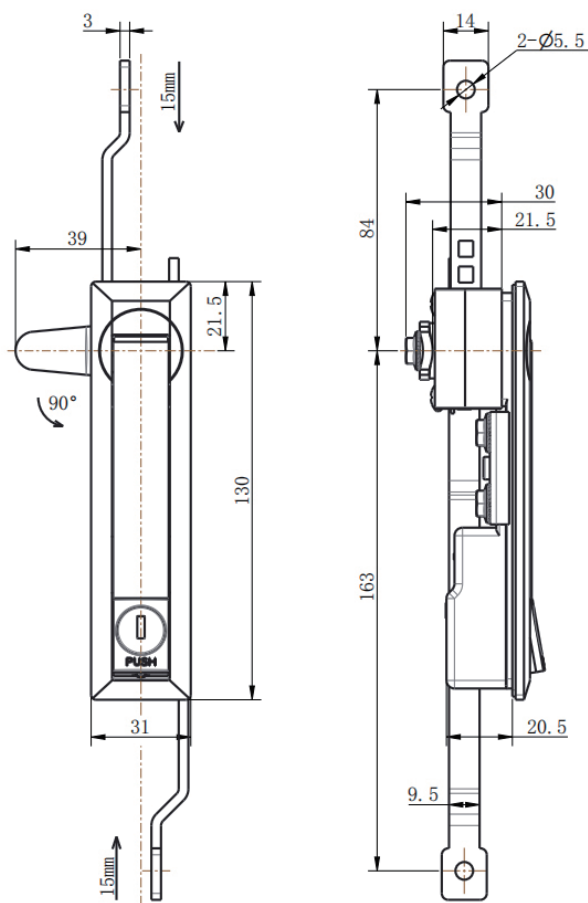

Material: Zinc alloy housing
steel cam and rod

Finish: Powder coating (black)
galvanized steel cam and
rod box assembly

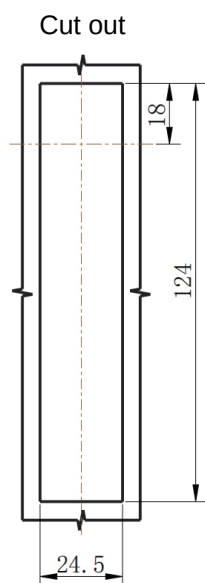

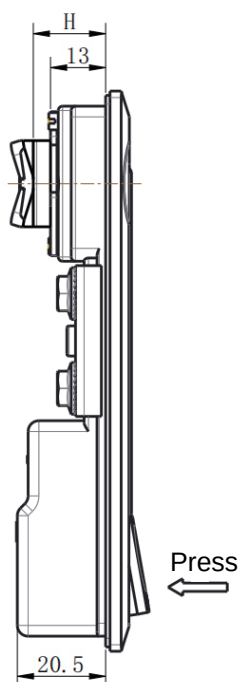

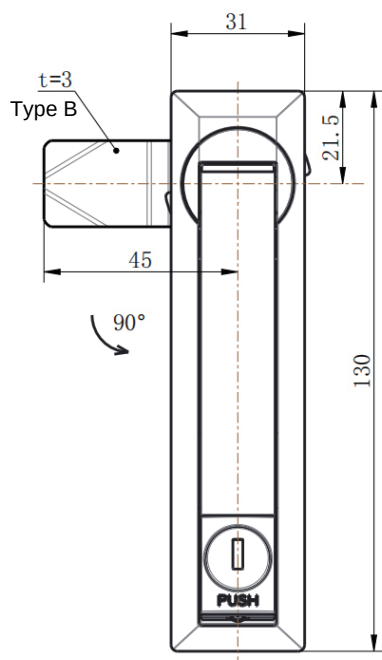

Application: 90 degree rotation to
open or close

Remarks: key K06

Part number

ML731-3

ML731-4

Material: Zinc alloy housing
steel cam and rod

Finish: Powder coating (black)
galvanized steel cam

Application: 90 degree rotation to
open or close

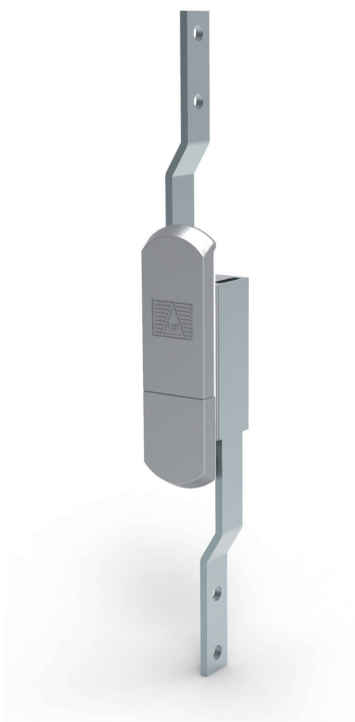

Remarks: key K06

Part number

ML731-4

ML820-1

执手锁

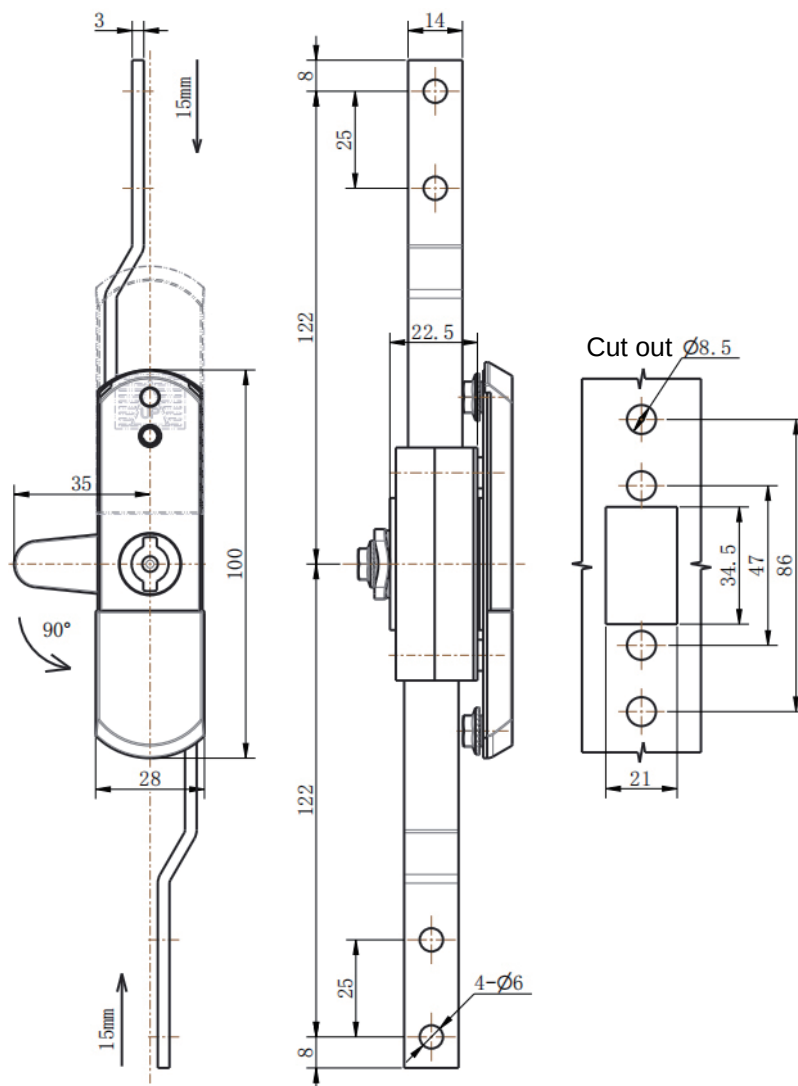

Material: Zinc alloy housing
steel cam and rod

Finish: Powder coating (Nanometer)
galvanized steel cam and
rod box assembly

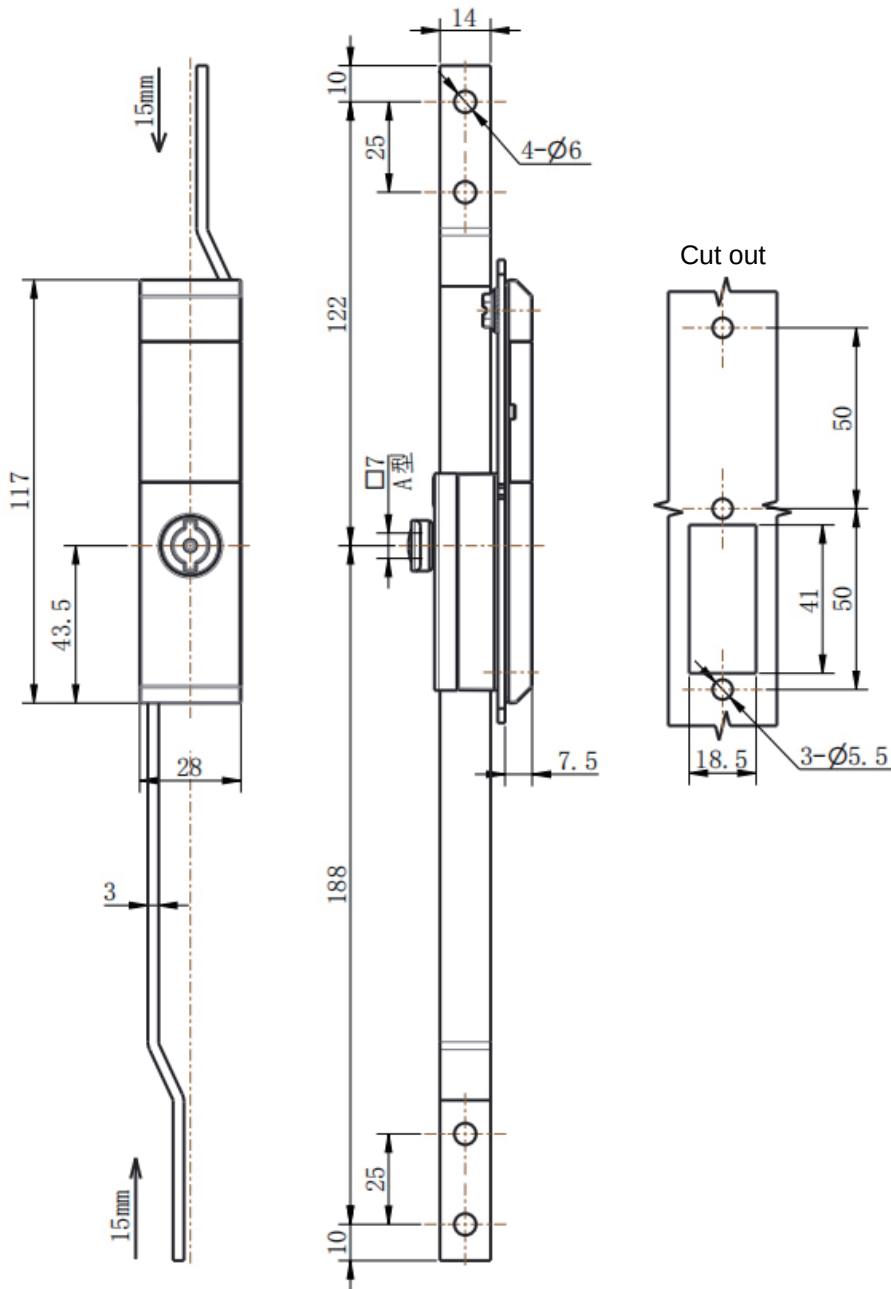

Application: 90 degree rotation to
open or close

Remarks: Optional K15-1 key

Part number

ML820-1

ML821-1

执手锁

RL

IP54

Material: Zinc alloy housing
steel cam and rod

Finish: Powder coating (White)
galvanized steel cam and
rod box assembly

Application: 90 degree rotation to
open or close

Remarks: Optional K15-1 key

Part number

ML821-1

ML828-1G

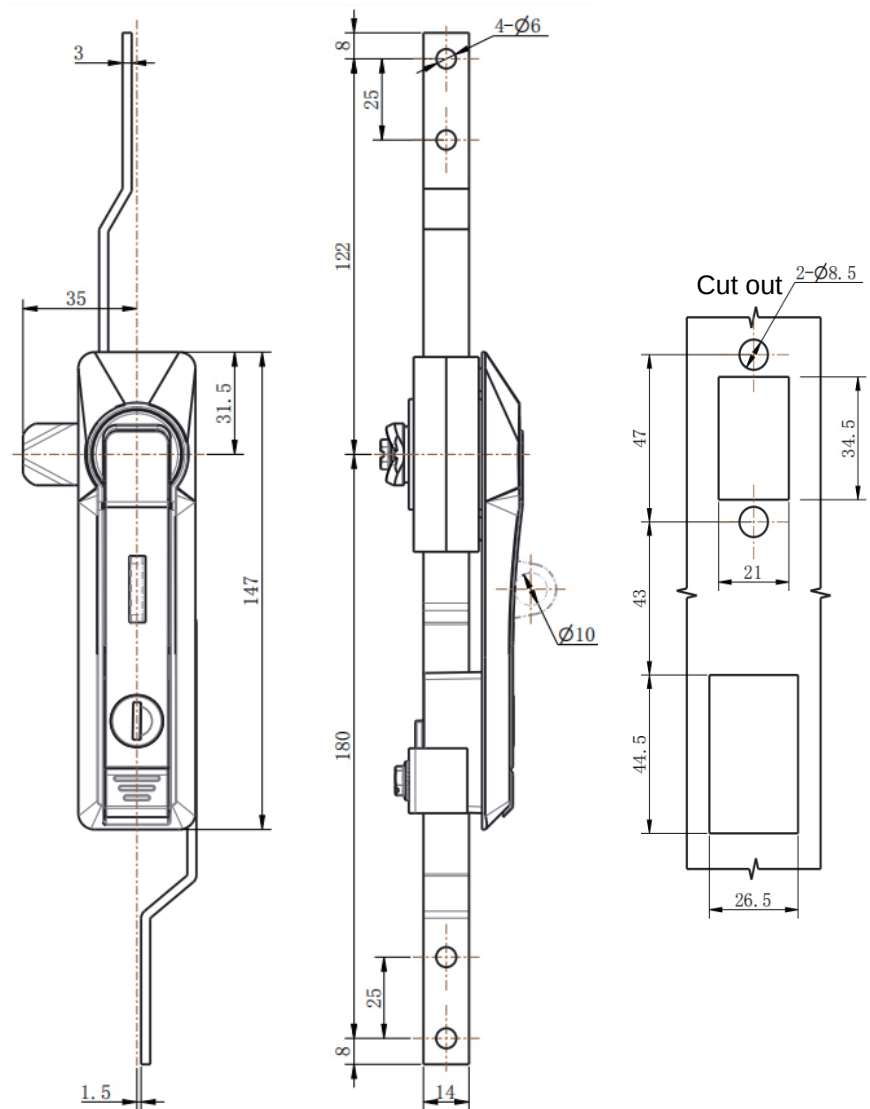

Material: Zinc alloy housing, steel cam and rod, Stainless steel padlock

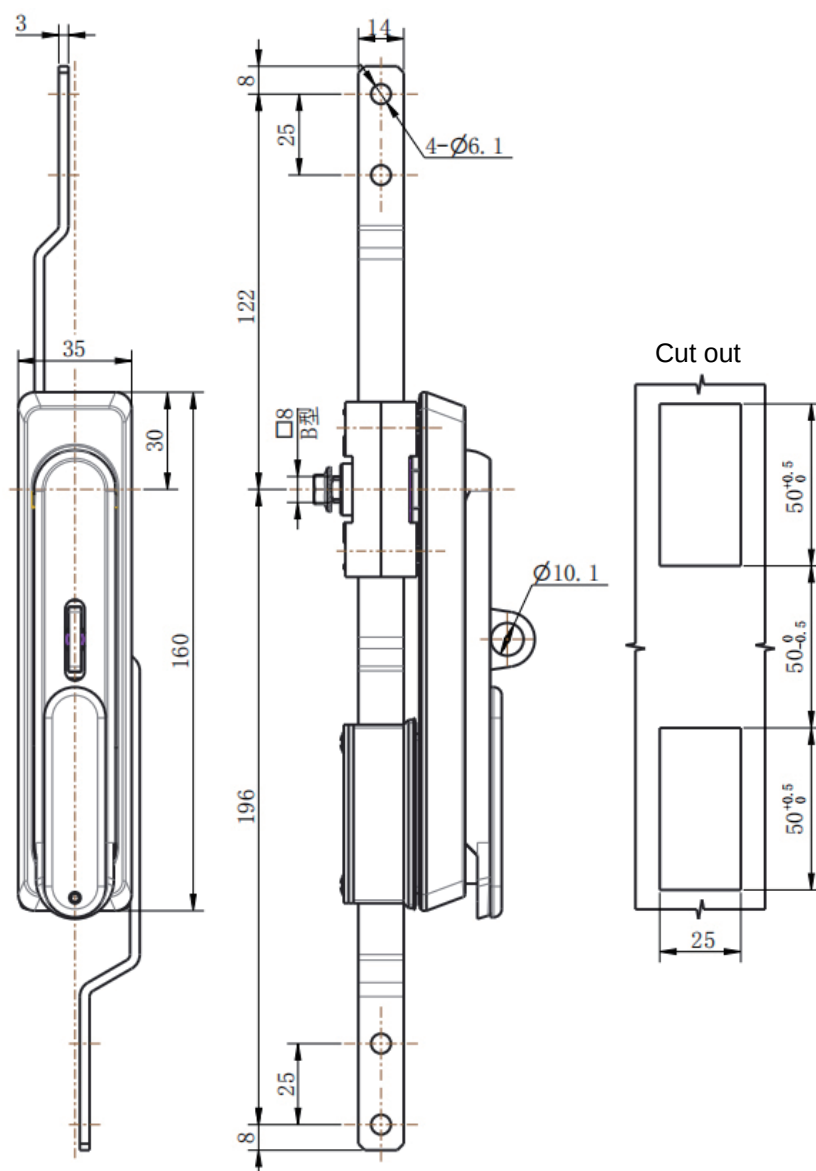

Finish: Powder coating (Nanometer) galvanized steel cam and rod box assembly

Application: 90 degree rotation to open or close

Remarks:Key333

Specification	Part number
without padlock	ML828-1
with padlock	ML828-1G

ML840-1G

Material: Zinc alloy housing, steel cam and rod, Stainless steel padlock

Finish: Powder coating (Black matte)
galvanized steel cam and rod box assembly

Application: 90 degree rotation to open or close

Remarks:Key333

Specification	Part number
without padlock	ML840-1
with padlock	ML840-1G

ML861-2E

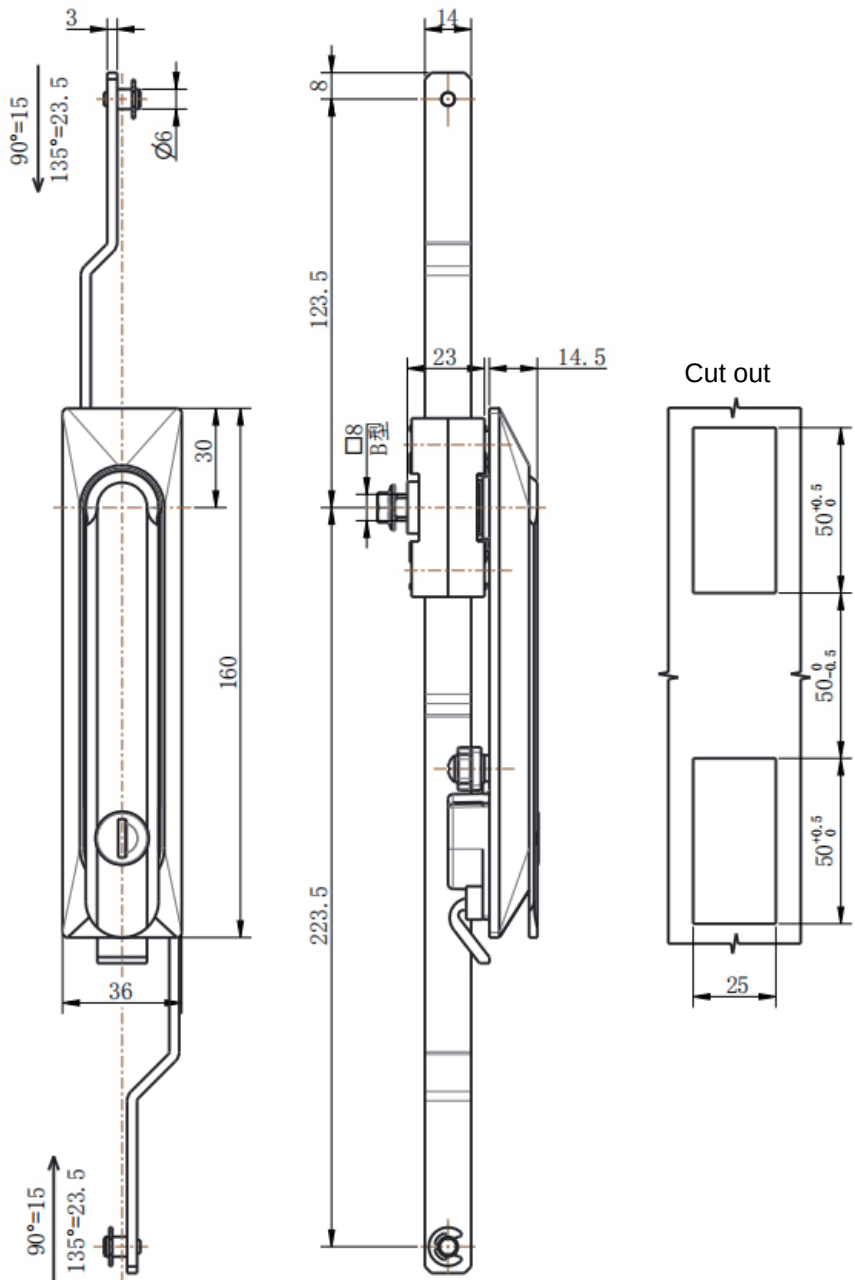

Material: PA housing, Zinc alloy
rod latch system, steel cam and rod

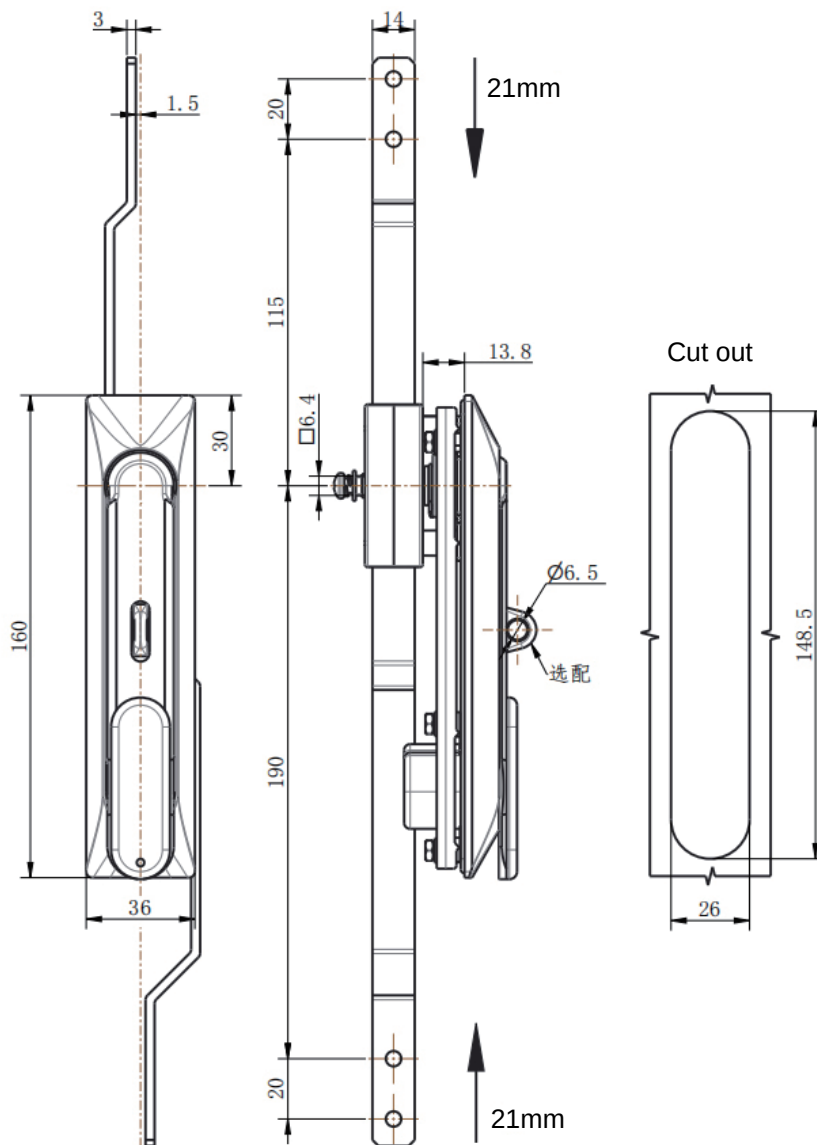

Finish: galvanized steel cam and rod box assembly

Application: 90 degree rotation to open or close

Remarks:Key333

Part number	ML861-2E
-------------	----------

ML861-2KG

Material: Zinc alloy housing, steel cam and rod, Stainless steel padlock

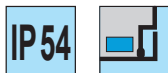

Finish: Powder coating (Black matte)
galvanized steel cam and rod box assembly

Application: 90 degree rotation to open or close

Remarks:Key333

Specification	Part number
without padlock	ML861-2K
with padlock	ML861-2KG

ML867-1G

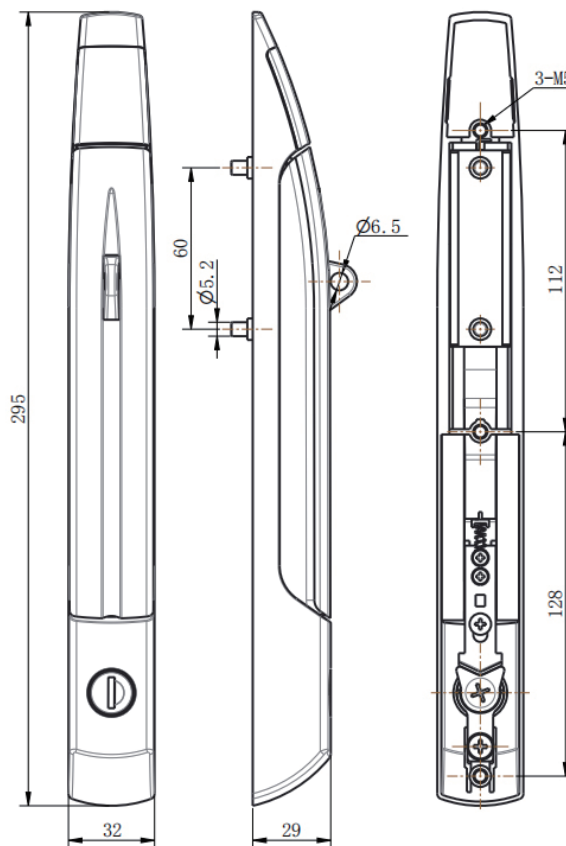

Material: Zinc alloy housing

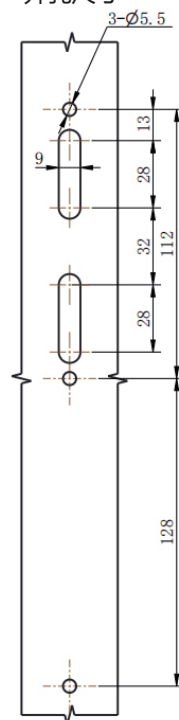

Finish: Powder coating (WhiteRL7035)

Application: The handle opens rapidly upwards, easy and quick installation

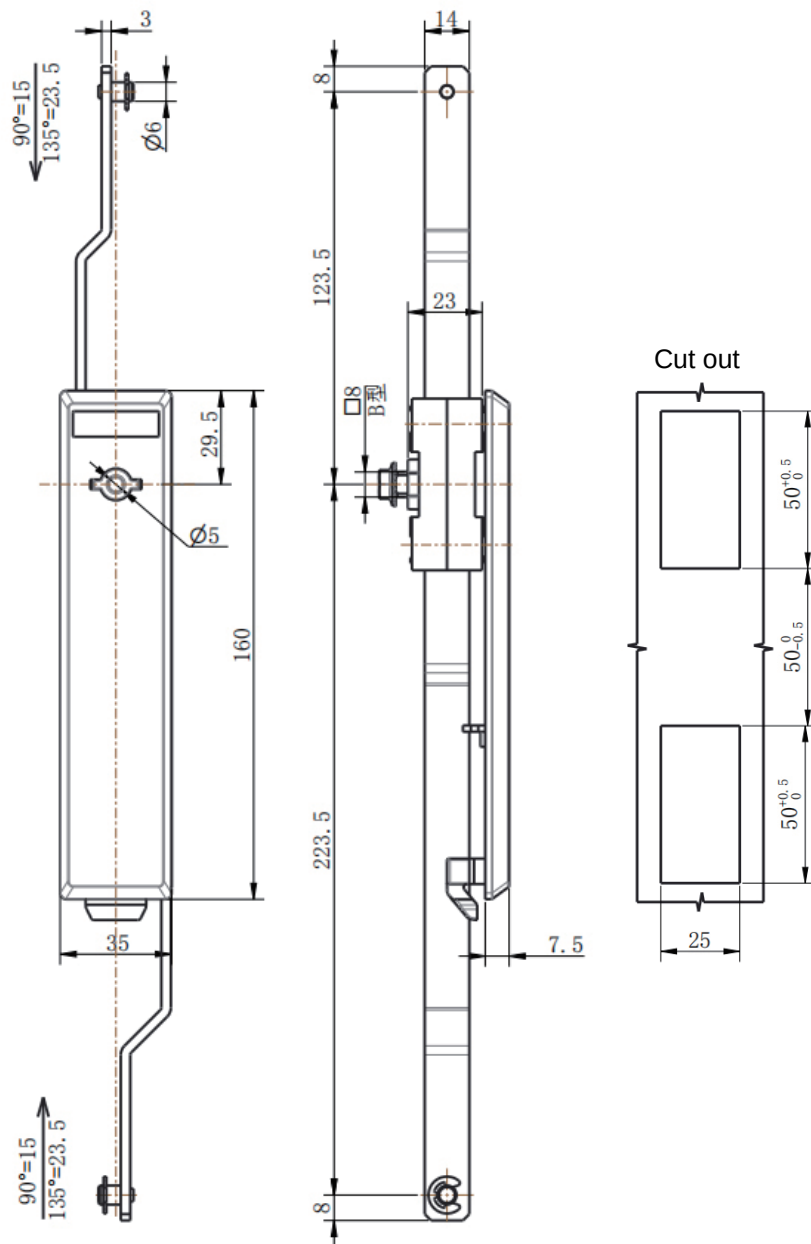

Remarks: double-sided dedicated key
